EDUCATION

College of Engineering, Michigan State University, East Lansing, MI <i>Master of Science, Computer Science (Graduate Teaching Assistant)</i>	Aug 2023 – Dec 2024 GPA: 3.8
College of Engineering, Michigan State University, East Lansing, MI <i>Honors in Bachelor of Science, Computer Science, Minor in Business</i>	Aug 2019 – May 2023 GPA: 3.8

WORK EXPERIENCE

<i>Technical Consultant (ML / Computer Vision)</i> Michigan State University, East Lansing, MI – Consulted on scaling an automated ECG extraction pipeline (OpenCV, PyMuPDF) to produce clean multi-lead waveforms – Standardized multi-page PDF ingestion, lead layouts, and signal scaling to keep outputs consistent across files and devices – Built segmentation + denoising algorithms that improved waveform fidelity and enabled downstream ML classification – Developed a supervised arrhythmia-classification pipeline and iterated with cardiologists to validate edge cases and improve model reliability	Sept 2024 – Present
<i>Technical Consultant (Full-Stack AI / Project Delivery)</i> PackSense, East Lansing, MI – Led delivery of a Python/Flask platform to scale review analysis to 10K+ reviews/month, cutting manual work by 60% – Drove performance improvements via JS-based filtering and pipeline tuning, reducing processing time by 30% at scale – Improved keyword/issue discovery by 25% using TF-IDF and FP-Growth, reducing analyst review effort by 40% – Coordinated 3+ teams on roadmap, metrics, and insights to turn e-commerce data into sustainability-driven decisions	Mar 2025 – Present
<i>Technical Consultant (ML Research / Program Execution)</i> Michigan State University, East Lansing, MI – Coordinated cross-functional efforts to build a multilingual COVID-19 forecasting model using Google Trends and clinical data – Defined data specs, standardized preprocessing, and aligned modeling workflows across 75 countries and multiple language groups – Led RF model cycles, validated outputs with collaborators, and delivered insights that improved regional accuracy ($R^2 = 0.89$)	Feb 2025 – May 2025
<i>Software Developer</i> United Airlines, East Lansing, MI – Led ML engineering team at United Airlines to build algorithms assessing course and instructor effectiveness for technician training – Leveraged data visualization tools to enable quick identification of performance trends, thus reducing data analysis time by 40% – Created a user-friendly User Interface for United Airlines LMS, enhancing accessibility and increasing user engagement by 35% – Streamlined data processing scripts, cutting report generation time by 50% for the client	Sep 2022 – Dec 2022
<i>Software Developer</i> Delta Dental of Michigan, Okemos, MI – Built & deployed virtual bots using C++, UiPath to automate certain ongoing business tasks in the company – Led RPA project initiatives and coordinated with cross-functional teams, improving project delivery speed by 20%	Nov 2021 – Aug 2022

CERTIFICATIONS

Project Management Professional Training (35 PDU Contact Hours)	TIA Education Group	Jan 2025
AWS Certified Solution Architect	Amazon Web Services	Oct 2024
Salesforce Certified AI Associate	Salesforce (Trailhead)	Oct 2024

PROJECTS

LLM-Based Student Q&A Assistant with RAG – Built a React front end and integrated Vertex AI Search for RAG-based Q&A on course materials – Coordinated with MSU IT for deployment, user access, and cost-efficient hosting within university systems	Jun 2025 – Present
Credit Card Approval Model Prediction – Designed and benchmarked ML models (Logistic Regression, Decision Trees, SVM, Perceptron), achieving 84.71% accuracy with SVM for credit card approval prediction using UCI dataset	Aug 2023 – May 2024

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, JavaScript, Flask, React
- **Data Visualization:** Excel, Microsoft Power BI, Python (Matplotlib, Seaborn, Plotly)
- **Development & Deployment Tools:** AWS, Microsoft Azure, Salesforce, Docker, Git
- **ML Libraries:** TensorFlow, Keras, PyTorch, scikit-learn, pandas, NumPy
- **Project Management Tools:** Agile, Waterfall, Gantt Charts, Trello, Jira, SDLC, ML feature cycle, Scrum
